CENTRO TORRI BIANCHE

“Centro Torri Bianche” is a residential, commercial and business park located in Vimercate, a vital part of the technological and production hub in the North-Eastern area of Milan. The business park is characterized by high-prestige architectural and technical features and is not only directly connected with Milan thanks to a specific exit of Tangenziale Est (“East Ring Road” exit n. 19) but also located not far from A4 Milan-Venice highway junction.

Centro Torri Bianche is composed by offices and all necessary services to residents, such as shops, bars, restaurants, hotel, residence, shopping mall, fitness club, 16-screen-cinema and 4.200 car parks. All the buildings are perfectly integrated one with the other, and able to accommodate an influx of approximately 5.000.000 visitors every year.

Newer buildings are equipped with high energy saving and zero emission geothermal climate control systems, glass facades that enhance and streamline the structure, raised floors, high speed duplex lifts, badge sensor access control, TVCC control and 24/7 security guard.

Giambelli SpA won the 1994 City Construction prize promoted by Assimpredil for “Centro Torri Bianche” project, a multi-function business park which provides all the advantages of the city without the city congestion.
